

SXF-M-2-45-WH-U

Solarix French style modules are designed for installations in modular outlets and floor boxes. Their size 22.5/45 x 45 mm enables their use in most modular systems that can accommodate products with these dimensions. The packaging includes multicolour plastic labels (i.e. red, blue, and white) with a PC and a phone icon to help to distinguish between individual ports. All Solarix French style modules are equipped with a shutter door and can also be fitted in the Solarix SXF-R-2-WH frame – i.e. it creates a complete modular wall-mount or surface-mount outlet (with the optional SX9-0-WH box). The colour of the modules is white.

Technical parameters

Number of Ports	1 and 2 positions for keystone
